CONTRACT AGENT

SYNTHETIC DEMO DATA Model: anthropic/claude-sonnet-5-5

Ask about a contract

Imagine one of these contracts comes up for renewal next month. Ask what you would want to know before deciding, in your own words.

10 invented contracts shaped like ours: order forms, master agreements, two renewals. Contract documents only: no usage data, invoices or emails.

YOUR QUESTION

Could you list all the costs for the company indicated in the contract Vendor10 ?

Ask Enter to ask, Shift+Enter for a new line

Here are the costs in the Vendor10 contract documents. The vendor is Vendor10 Design Ltd. and the customer is Customer Co.

Original Order Form, 1 Dec 2025 – 30 Nov 2026 (12 months)

- The order is 400 user licences at USD 40 per user per year, with an introductory discount. `SYN-10-order.md#Products and Fees`
- The annual fee is USD 16,000. `SYN-10-order.md#Products and Fees`
- The term dates come from `SYN-10-order.md#Subscription Term`.

Renewal Order Form, 1 Dec 2026 – 30 Nov 2027 (12 months)

- The renewal is 400 user licences at USD 45 per user per year, and the introductory discount no longer applies. `SYN-10-renewal.md#Products and Fees`
- The annual fee is USD 18,000. `SYN-10-renewal.md#Products and Fees`
- The term dates come from `SYN-10-renewal.md#Renewal Term`.
- This is USD 2,000 more per year than the original term. I calculated that as 18,000 – 16,000.
- The renewal subscription renews automatically for successive 12-month periods unless the Customer gives written notice of non-renewal at least 90 days before the end of the current term. `SYN-10-renewal.md#Purchase Terms`
- The documents don't state the price for any later renewal period.

Taxes and payment terms

- Fees exclude applicable taxes, which are the Customer's responsibility. `SYN-10-order.md#Products and Fees`
- The Master Subscription Agreement says the Customer pays all applicable sales, use, value-added and similar taxes. Taxes based on the Vendor's income are excluded. `SYN-10-terms.md#3. Fees and Payment`
- Each invoice is due within 30 days of the invoice date unless the Order says otherwise. `SYN-10-terms.md#3. Fees and Payment`
- The Customer must pay the undisputed portion of any invoice it disputes in good faith. `SYN-10-terms.md#3. Fees and Payment`

Total over the two terms

- USD 16,000 + USD 18,000 = USD 34,000, before taxes. I calculated this from the two annual fees.

Not found in the results

- I found no late-payment charges, setup fees, support fees or other costs for Vendor10.
- The search results don't show the invoicing schedule, such as annual or upfront, in the Vendor10 order form.
